P.C.

The petitioner has approached this Court aggrieved by the fact that so many farmers have been made to dispose of their agricultural lands in favour of respondent Nos. 1 and 2 in order to start the wind mill project and, according to the petitioner, this has resulted in not only loss to the poor farmers but it has also affected the land under cultivation and land available for grazing, and if this project is

permitted, then it would result in so much of agricultural land being wasted as barren land. We do not find that any public interest is involved in the matter. None of the farmers who have sold their land to respondent Nos.1 and 2 have approached this Court with such a grievance and, therefore, we do not find any substance in the petition. Petition is accordingly dismissed.
